

Thank you for your interest in becoming a leader at GenPride!

Generations Aging with Pride (GenPride) is the premier non-profit organization serving the LGBTQ elder community in Seattle and King County. We are on the cusp of expanding our reach and amplifying our impact, from the creation of the first LGBTQ Senior Community Center to the mandate to train all the senior centers in King County to be inclusive of the LGBTQ population. Our continued success depends not only on the ability of our organization to identify and meet the needs of the LGBTQ elder community but also on the ability of the Board of Directors (BOD) and its committees to provide the funding, guidance and oversight to support the organization and ensure its success.

We are embarking on a recruitment process that will identify individuals who want to become part of this exciting new chapter in Seattle's LGBTQ story. We envision a process that will attract people whom we believe can contribute to the growth of GenPride by serving one of our committees.

Here is a document that provides an overview of our organization, the skills and experiences we are looking for on our Board committees and an application for you to fill out if you are interested in becoming more deeply engaged with GenPride.

<https://genprideseattle.org/committee-application/>

We look forward to connecting with you and exploring further your engagement with GenPride as we gear up to serve our community more broadly and comprehensively with pride, care, and conviction.

Cordially,

GenPride Board of Directors
